

Wood Pole Sewer Spoons

Sewer Spoons made by Southland tool Mfg. Inc. are available with strong 1.5" dia. Ash wood handles. These are high quality solid hardwood handles designed for the toughest sewer work.

The spoon is a heat treated alloy steel and 9" in diameter with just the correct angle to fill it and lift it.

The steel connection is 12" long and provides a very strong connection for the poles no matter what length you choose.

We have poles available in single or 2 piece configurations. Below are some of our sizes. 10' AND 12' one piece poles must go by motor freight. All else goes by UPS for substantial savings.

- PS-6 6' SEWER SPOON (ONE PIECE)
- PS-8 8' SEWER SPOON (ONE PIECE)
- PS-10 10' SEWER SPOON (ONE PIECE)
- PS-12 12' SEWER SPOON (ONE PIECE)
- PS-102 10' SEWER SPOON (TWO PIECE)
- PS-122 12' SEWER SPOON (TWO PIECE)
- PS-162 16' SEWER SPOON (TWO PIECE)
- PS-182 18' SEWER SPOON (TWO PIECE)
